Went to Mission Valley with Philip and Gatz. Started at 2 P.M.; returned at 4<sup>30</sup>. A warm clear day. Total distance 16 miles.

Saw no snakes or lizards. Went down 6<sup>th</sup> St grade; returned on Fairmont.

Went up the river to foot of Mission Gorge i.e. where river emerges. Found plenty egg strings of *Bufo boreas halophilus*. Mostly in shallow pools where there was no water flow. Many pools had none but where they were present there were large quantities. They were apparently quite fresh. In some places there were masses which were further developed, movement being evident. In these cases could not be sure they were the same species as the strings were broken up but judged from partially dried strings along the margin that all were *Bufo*. Brought home two jars full.

Caught one large *hyla regilla* but lost him.

February Saturday 27, 1926

At 3<sup>05</sup> P.M. went to Mission Gorge where hunted awhile; thence to Santee and returned by highway. With Philip. A clear hot day, the third of a series. Yesterday 87°. Humidity low. Returned at 6<sup>05</sup>. Total miles 30.

In the gorge found many of the pools dried up and the bufo eggs likewise. Elsewhere the eggs had all hatched and the tad poles were congregated in great numbers where the water was still and shallow. Saw no unhatched live eggs. Collected a pair of tad poles. Saw one large gray tadpole different from the black bufo.

Saw no live snakes or frogs.

Saw 2 *S. Orcuttii* in the gorge one being young. Also 1 *uta s. h.*. One other lizard undetermined. Did not collect any.

One large gopher snake dead by the roadside just above the gorge.

1926 Sunday 28, February

To the top of the grade beyond Glen honey via Encanto Helix Grossmont Bostonia Dehesa.

Returned via Alpine Junction, Alpine and the highway. Started at 10<sup>15</sup>. Returned at 6 P.m. With Family and Harriet C. miles 86.6

The fourth hot day of a series. Ate lunch at Glen honey. Stopped to hunt at ~~three~~ places only viz Glen honey, at top of grade beyond school, and for a short time on Dehesa grade. Saw plenty lizards particularly crossing the road.

Got 2 *Xantusia* 1 large 1 small at top of Glen honey grade. Saw several more.

Got a fine large *Mitchelli* at Glen honey in the rocks above the school. Was coiled in resting pose to south of moderate sized rock that had a hollow beneath. In this he took refuge at once. Looked as if it might have been his den. Was quite lively and difficult to catch.

One dead juvenile *Pituophis* at Lakeview.

Sunday 7,

1926

To El Monte Oaks. Started at 11<sup>20</sup>. Went via Fairmont and Mission Gorge. A clear moderately warm day in town after a week of similar weather. Family, Gatz, H.K.s, M.K.s. Wangs. Werts etc.

Stopped for lunch at El Monte Oaks but almost immediately a shower started. Got quite heavy. Finally had to leave.

Went back to Lakeside where there had been almost no rain. Then around to Lakeview where a stop for the afternoon was made. Hunted all afternoon in the rocks along the cliffs east of the road between Lakeside and Lakeview. Returned at 6<sup>30</sup>. Total miles 60.

- 1 dead Pacific Rattlesnake large in Mission Gorge.
- 1 live Alligator caught in Mission Gorge.
- 1 large *M. lateralis* lost in Mission Gorge
- 1 medium Gopher caught in Mission Gorge.
- 1 Large Pacific Rattlesnake dead in road at El Monte.

Also Lakeside caught the following.

- 1 large Alligator
- 1 *Xantusia henshawi*.
- 1 Skelly (male)

Saw several skellys + utas.

Allegator hybrids at 25.9, 26.9 and about 15.

March Saturday 13, 1926

Went out with Philip in the afternoon. Start at 2<sup>15</sup>; back at 6<sup>20</sup>. Previous day had very hot with east wind but today was only comfortably warm. Rather overcast and cloudy in the back country. Total miles 69. Went to Tulzua Summit; out Cajon ave, return via <sup>inca</sup> ~~inca~~.

One dead yearling gopher near top of grade before descending into Tamahe. On Tamahe grade 16.4 got one yearling gopher crossing the road. Further down the same grade got a 5 rattle red rattler. Was on edge of the road. No fight.

First stopped to hunt in large cactus patch beyond Tamahe. Got a juv sized red rattler. It was in cactus and rattled before I saw him just as I passed 8 to 10 ft away. First appearance of this kind.

Next hunt was in rocks and cactus at river in road. Got 2 skellys here and lost 1 horned toad. no snakes.

One dead yearling gopher just beyond first crossing of Tulzua Creek.

Last hunt at Tulzua summit. Got 1 juv large red rattler. Was stretched out and moving slowly along base of rocks. Also 1 X-h. Also 1 yearling Pacific rattler dead in the road. 33.9. Got 2 alligator lizards. lost 1 (over)

1926

Sunday 14,

March

Went to Viejas on a large family picnic. Everybody along including Ed, Werts and Wallenbergs. Start at 11<sup>15</sup> back at 6<sup>10</sup>. A moderately warm day - somewhat cloudy. Went out by highway; returned via Alpino, Rehosa, Tamacha, Encanto.

No dead snakes seen in the road. Hunted in two places at foot of Viejas grade just north of large oaks where picnicked and on both sides of the road near old reservoir. Got nothing in the second place.

In the first got a skink and a skelly. Not many lizards were seen this day; mostly skellies.

In large pile of rocks got 2 large red rattlers. First saw tail of one draped over rock about 75 feet away. Found this snake half under a large flat rock and another coiled within. They were extricated with considerable difficulty.

One escaped from rock while other was being placed therein and having been severely mauled the first time was ready for a fight. When cornered in a bush with a rock at his back he struck viciously once about half his length. Neither did anything but attempt to escape while under the original rock.

March

Friday 19,

1926

1926

Saturday 20, March

Went to the Dulzura Creek just beyond the first crossing, with Philip, V.A. Hyman and his Mexican nephew. Started at 1 P.M.; returned at 6 P.M. Total miles 57.7. A cloudy day, rather cool. Occasional sun. Evidently rain in mountains beyond.

1 dead Juvenile Gopher at 15. Tamul.

1 dead do at 15.5 "

1 Pacific Rattles about 5 Rattles Complete. Caught crossing the road at 19 Tamul.

1 dead Juvenile Boa at 22.7. Tamul.

No other snakes seen in the road dead or alive, coming or going.

Hunted at only one place - namely at 28.9 miles just beyond Dulzura Creek crossing. Hunted on rocky hillside to north of road. Got 1 *Sceloporus humilis* under rock flake, 1 - 5 Rattle *exsul* (Hyman).

Hyman also saw a snake which escaped probably *M. lateralis* but can't be counted. Got following lizards. 15 X.h (lost 2) 1 Uta 1 Skelly, 1 *Coleonyx*. Saw only one other lizard; they were quite scarce today. Too cold. X.h's are quite evidently under their flakes and on south sides.

March Sunday 21, 1926

Went up Cottonwood Creek about 2 mi. n. of the store (junction point). Out via Encanto; returned via La Mesa. Total miles 81.2. With Family, Alice K. & Harriett. Cool and slightly windy. Rain at Barrett (reported). Part cloudy at Cottonwood. Started at 10<sup>45</sup>; returned at 6<sup>00</sup> P.M. Met Hks there.

Hunted in rocky hillside before lunch. Climbed difficult cliff after lunch. Used very poor judgment here as used all time and strength climbing this and it was too steep for snakes. Never again.

In these rocks got 3 Utae, 1 *Hyla arenicolor*, 1 *Batrachoseps* (Hk.). Saw a number of Utae and Skellies. No Orcutt's. Alice caught one toad at camp.

Snakes: On road about a mile west of Bulzera lost a garter in the poison oak. At this point we dead *Trimorphodon* partly smashed and decomposed but saved him anyway.

At Spring Valley 1 dead gopher about 1/2 grown in the road.

A rotten day (except the *Trimorphodon*) and my own fault

1926

March Tuesday 23, 1926

1926      Wednesday 24,    March

March Thursday 25, 1926

1926

Friday 26, March

The day was very cold and windy. I went out for a walk in the morning and saw many birds. The children were very happy and played for hours. We went to the park and saw many flowers. The weather was very nice and we had a very good time. I went to school and saw many friends. We had a very good day and were very happy.

March Saturday 27, 1926

Went to Dulzura Summit with Philip. Start at 130; returned at 6 P.M. Went by regular road and returned by way of hill road to Jamacha. A partly cloudy moderate day; neither warm nor cold. Total miles 69. r

Hunted for a short time at the cactus patch between Jamacha and Samuel but got nothing.

Dead snakes on the road r.; both young gophers at 19.4 and 42.6 miles (Samuel).

Spent the rest of the time hunting at Dulzura Summit. Got one red rattlesnake. Was unusually thin. looked almost sick. He saw me first and rattled lightly and hissed; took the striking attitude at once. Was about five feet away when first seen.

Got 2 *Uta*, 2 skellips, 1 horned toad, 1 *Hyla arenicolor* (under a Xantusia flake) and 1 *Xantusia* all at this point. 1 *Uta* with eggs. Lizards were rather plentiful and I saw many I did not get; amongst others at least half a dozen *S. orcutti*'s.

Died  
in 12  
days

1926

Sunday 28, March

Went to Wildwood via Mission Gorge; returned via highway. With Gould's (exc. E.B.) and family. Started at 10<sup>45</sup>; returned at 6 P.M. A cloudy cold day with little sunshine and a strong west wind particularly evident at the higher elevations. Total miles 67.

Saw no dead snakes on the highway.

On the way out got one California Kingbat half grown crossing the road at Mission Gorge. This was the only snake seen on the road.

Hunted at Wildwood on east mountain both before and after lunch. Was much troubled by brush. Wind was bad particularly in afternoon except under lee of hill.

Lizards: Got 17 X.h. (lost many) 1 uta 1 skink. Saw 1 horned toad; 1 skelly or cutti. Not many lizards running about.

Snakes. Got one *Diagonodon bimaculatus* under a flat rock. Earth below; not another rock.

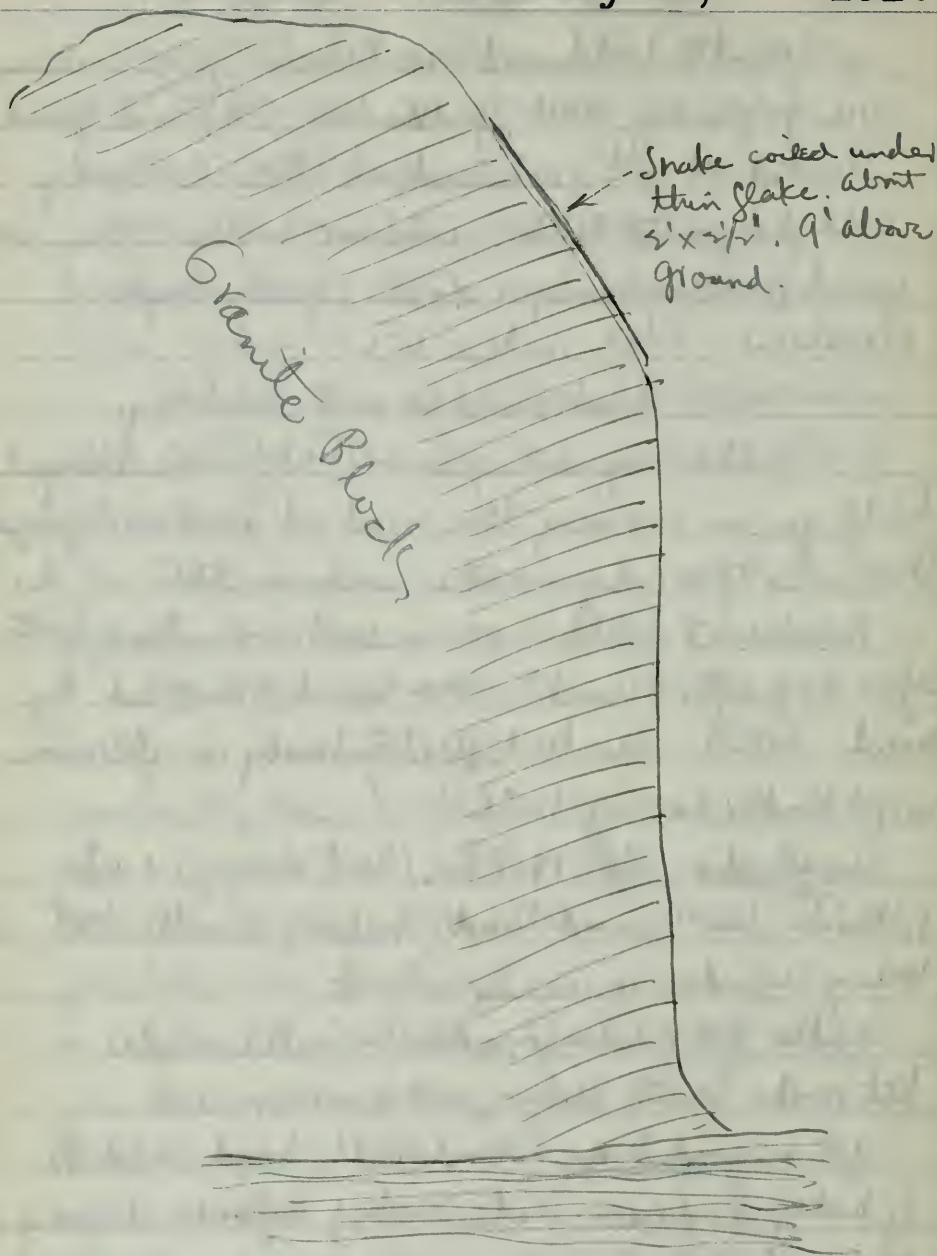

Got a good *boa*. Found with head and  $\frac{1}{3}$  of body under a flat rock.; balance showing. Had a sharp tail; no orange color.

Found a large *M. lateralis* under a flake (typical X.h. flake about 45° angle and thin.) was coiled up under middle fully 9' above ground. Eye quite opaque. Lost him. See next sheet.

Traveled 108 miles alone. 6<sup>th</sup> St Grade, Murphy Cañon, Escondido, San Marcos, Twin Oaks, San Marcos, Vista, San Luis Rey River (south side) Oceanside, Rose Cañon. Start at 2 P.M. - Return at 6<sup>10</sup>.

A cool partly cloudy day after a week of similar weather. Quite windy. Did not stop to hunt at any point.

Got only live snake; a very large *Thamnophis* in the creek bed at Escondido on the short cut west of the town.

Checked the following dead snakes

<i>Pituophis</i>	large	Mission Valley
do	small	Poway Grade.
do	do	Escondido
do	large	San Marcos.
<i>Thamnophis</i>	medium	do
<i>Pituophis</i>	large	Del Mar.
<i>C. exsul</i>	do	Rose Cañon
<i>Pituophis</i>	do	do
do	do	do
<i>Rhinocheilus</i>	do	Pacific Beach (or Morana).

April

Sunday 4,

1926

Went to Borrego Valley with Philip, Ayres, Weiss and C.D. Jr. Travelled 195.2 mi. Went out via Sutherland; returned via the south road between Ballena and Ramona. Otherwise shortest roads. Started at 7<sup>30</sup>; Returned at 8<sup>20</sup> P.M.

At the start the weather was partly cloudy but not cold. Very windy in San Felipe. Comfortable in Yaqui Well, Narrows and Borrego Valley; still partly cloudy. Returning ran into a heavy mist between Banner and Julian. This became a heavy rain at Witch Creek and quite a storm from Ramona in. Couldn't have seen a snake in the road alive or dead from Witch Creek in x. Saw a few toads hopping across the road by the head lights.

Only one live snake seen. This was a small gopher caught at the top of Mussey Grade (34.1 mi)

Only 2 dead snakes seen; 1 large gopher at 37.1 (top of Mussey) and 1 large patch nose 5.3 mi east of Julian on the way home. Call it Banner as it was way below first trees.

Hunted for a short time at the Narrows on the way out. Got 1 *Collesaurus ventralis ventralis*.

Then hunted for a long time at Borrego amongst the mesquite but got only one *Uta*.

1926

Monday 5,

April

Sunday (Continued)

graciosa. Just before reaching Borega (that is where we stopped) got a *Crotaphytus wislizenii* (with 2 eggs) and a *Dipsosaurus dorsalis dorsalis*.

Best hunt was at foot of Sentenac. By this time it was quite windy, dark and cold. Got 1 *Uta stansburiana elegans* under a granite flake. Turned over many rocks here and at the narrows but got nothing.

As in the case of the previous trip in May of last year I was impressed with the scarcity of reptile life in the desert. Lizards were exceedingly scarce.

In Borega Valley met a rancher who had lived there 12 years although now farming at Coachella. Talked snakes. It was quite evident he could distinguish between *C. exsul*, *C. oreganus*, *C. atrox atrox* and *C. cerastes*. He had never seen any rattles but *C. cerastes* in Borega Valley. Claimed to be familiar with *C. atrox atrox* from Imperial and Coachella. Said they were more numerous in Coachella than Imperial.

*C. cerastes* quite plentiful in Borega he thought especially in May and September.

April

~~Tuesday 6,~~

1926

Sunday April 4<sup>th</sup> Continued.

Said they could be caught most easily under bushes after showers.

He said there were gopher snakes in the valley - not many. They were the desert kind light colored with few spots.

Also there were red racers.

There was another snake which he referred to as a king snake - as near as I could judge it is the yellow phase of the red racer.

Some mileages

Ramona	41.9	22.7 via Sutherland
Julian	64.6	
Borrego	98.1	(turned back)
Narrows	106.2	
Julian	132.0	21.8 via South road
Ramona	153.8	
Horne	195.2	

1926      Wednesday 7,      April

1926

Friday 9,

April

April Saturday 10, 1926

Has rained from Sunday the 4<sup>th</sup> to Friday the 9<sup>th</sup> continuously. Almost 5.5" of rain in San Diego and from 2.5" to 12.5" throughout the county.

This day was cool and part cloudy. Went to Point Loma, Mission Beach, La Jolla, Pacific Beach with Gg & Rickey. Start at 3<sup>30</sup> - returned at 6 P.M. Did not get out to hunt. Saw no snakes on the road dead w alive. 46 miles total.

1926

Sunday 11,

April

A cool partly cloudy day. Rather cold wind. Very damp ground in the back country.

Went to Ramona with family and pett. Start at 10<sup>30</sup>; returned at 6 P.M. 82 miles.

Picnicked just beyond Ramona on the Rutherford road. Where there are many rocks on the north side. Hunted here only.

Saw no snakes along the road dead or alive.

While I was hunting in the rocks the family got me large *C. ornatus*. Almost stepped on in the brush.

Found one *L. roseofusca* large under a small flat rock. Only snake I saw.

Got 2 *X. h.* and one *U. s. h.* Saw few lizards. Lost a few *X. h.* Saw one *ocellus* under a rock but lost him.

The rocks at this Ramona location are no good. Not the right consistency to flake.

1926

Saturday 17,

April

A cold windy day. Did not go out.

April Sunday 18, 1926

A cold windy day threatening rain. 140 miles

Went to Campo via southern route thence to White Eagle garage and returned via Descanso highway. Started at 10<sup>30</sup>; returned at 7 P.M.

With family, Allie & Harriett.

Stopped for lunch west of high railroad bridge. Hunted in the rocks here for about one hour. Did not hunt at any other place.

Did not see any live snakes this day.

Caught 3 skellys, 1 uta, 1 xantusia at lunch place. Also shot one scuttie. Saw several lizards which I did not get, but not of any other kind.

Only ~ dead snakes on the road showing that they had not been out during the week:

1 Juvenile Gopher at Encanto (5 mi).

1 Patch nose at Potrero (50 mi).

✓ Had plenty car trouble this trip.  
 ✓ Seemed to be stoppage in the gasoline feed.  
 Rained all the way on the return trip. Turned out to be  
 bad luck

April Thursday 22, 1926

1926

Friday 23,

April

April Saturday 24, 1926

A cool day with a high fog in town; warm and sunny in the back country.

Went to foot of Old Viejas Grade via La Mesa, Grossmont, Bostonia (south side), Dehesa, Alpine, Willows (picked up Allen here). Returned by the highway.

Did not hunt at any time. Started at 1<sup>30</sup>; returned at 6 P.M. Total miles 78

Plenty lizards along the road, skellys and utas.

Live snakes

1 large *m. lateralis* crossing the road at Dehesa

1 small *m. lateralis* crossing the road on the Dehesa grade. Lost both of these.

Dead snakes

1 large *t. o. hammondi* in the highway near entrance of Harbison Cañon road

1926

Sunday 25,

April

A cool day with a high fog in town;  
warm and sunny in the back country.

Went to Dulzura Summit with family,  
Hop and Harriett. H.K.s and Holloways  
came out later. Hop and Doc. Holloway  
hunted.

Hunted both before and after lunch.

Went out at 10 A.M. Returned at 6<sup>30</sup>.

Total miles 72.

Got 17 X.h., 3 skellys, 2 utas, 2  
whiptails, 1 *hya arenicolor*. Lost many X.h.  
and 2 whiptails. utas and skellys not  
plentiful for so fine a day. Was  
surprised at this. Saw 1 *ocuttii*.

Most of the *Xantusia*s seemed to be  
on the north sides of boulders.

Saw no live snakes this day.

Dead snakes as follows:

At Dulzura.

1 Red rattler large

1 Pacific small.

2 Gophers small.

At Taniel.

1 Gopher large.

(at Indian Springs)

at Tamacha 1 Red Rattler large.

April

Friday 30,

1926

1926

Saturday 1,

May

Went to Descanso to see Allen.  
With Addison. 45 miles each way. 90 total.  
Went via highway. Started at 3<sup>30</sup> - Returned  
at 6<sup>30</sup>.

A cold cloudy day without much  
wind. Beyond the willows the fog  
was quite heavy. New Viejas grade  
so soaked as to be slippery.

One dead snake on the road.

A long nose at Flynn Springs.

Got from Allen all caught at willows -  
10 cutti, 6 S. Kellys, 1 Uta, 1 small alligator.

Hunted (on return trip) in rocks  
near foot of new Viejas grade - that  
is in the dip. Got 13 x.h., 1 skink.  
Saw only one skelly. Rocks were cold  
and wet. *Xantusia* is extraordinarily  
easy to catch. Quite chilled and generally  
made no attempt to escape. Noted also that they  
frequently fell off the rock when the flake  
came away.

Got 2 *Trimorphodons* 1 large, 1 medium.  
Were in a crack in boulder. First one seen was  
only a few inches below surface (on account of dark  
cloudy day?) Rock was very large and took us  
a long time to pry away from main boulder.

May

Sunday 2,

1926

To Descanso and back via  
highway. 90 miles. Start at  $17^{\circ}$ ;  $5^{\circ}$ ;  
back at  $5^{\circ}$ .

No snakes seen dead or alive.

A cold damp cloudy day. Fog  
above 3500 ft.

Hunted at foot of new Viejas grade  
for a short time. Got 5 x.h. and 1 Skelly.  
Also hunted about 1 mi. w. of Willows.  
Got nothing here.

a fine clear day but did not go out. Too much Rotary business.

1926

Sunday 9,

May

Went to Pine Valley via Campo, returning by way of Descanso. With the family, Gary and M.K. (coming back only). Total miles 124.7. A fine clear day not too warm. Hooked very good. Started at 12<sup>40</sup>; returned at 7<sup>15</sup>.

Only 2 dead snakes seen.

1 Small *Salvadora* at Taniel

✓ 1 medium C.C. mormon at Campo. This was good enough to save.

Hunted with Allen for about 1 hour in the rocks south of Laguna Junction. Got 2 X.b., 1 small <sup>(red eye?)</sup> *scutiger* and 1 small *masticophis lateralis*. The latter was under a rock.

Allen had for me

1 large gopher

1 small gopher

1 Whiptail.

1 Skelly

2 Uta

2 horned toads.

Location's later.

Got from Fisher 1 *Anniella pulchra*  
from Rincon.

1926

Saturday 15,

May

✓ A fine day but did not go out.  
Too tired after Rotary Conference.

May

Sunday 16,

1926

A fine clear day; pleasantly warm and clear in the back country. Not too warm.

Went to Hurlberts via highway with Mell. Picked up Allen; thence to old doke house south of Descanso; thence to Olanzanta; thence to Pine Valley about 1 mi north of the bridge on the Noble's mine road; thence home (dropped Allen at Descanso) thence home via highway to Bostonia then back roads, Grossmont, Helix and Encanto. Miles 118.9.

Started at 8<sup>45</sup>; returned at 6<sup>30</sup>.

Dead snakes on the road:

1 Small Calif King at Viejas

1 Garter at Descanso.

1 Gopher at El Cajon.

1 ? at Flynn Springs (did not stop - too much traffic).

live snakes.

1 Small gopher at Lakeview (was on side of road just getting ready to cross "Fighter").

2 Tantillas at Descanso (old doke house).

3 Pacific Rattles at Pine Valley.

First hunted in rocks around old doke house south of Descanso. Did not see many lizards here. Allen got 2 fine Tantillas under a rock. Rock was resting on ground not

1926

Monday 17,

May

137

Sunday Continued

on another rock. Unfortunately one was seriously injured in turning over rock and died on the way in. Both were fine full grown specimens, noticeable for absence of white ring back & black head.

Hunted in the road about 2 miles north of Pine Valley Cuyamaca junction for a short time but got nothing here.

Then went to Pine Valley taking the north road and hunted in 2 locations. Got 3 Pacific Rattles all in rocks and all seen by Allen first. 2 large; 1 medium. Plenty of lizards here particularly skellys and utas. No good fakes for Xantusia. Total lizards.

1 *Sceloporus orcutti*

12 *Sceloporus occidentalis bisenatus*

2 *Uta stansburiana hesperis*.

1 *Phrynosoma* (alive at Des Canes).

2 *Xantusia henshawi* (alive).

1 *Gerrhonotus* (small - alive).

Carroll brought in 547 newts, 3 garter

and 1 C.C. moccasin tonight.

Got from Allen 3 skellys and 1 *Uta* from Laguna?  
Also 2 large frogs. *Rana aurora draytonii*  
from Boulder creek

1926

Friday 21,

May

May

Saturday 22,

1926

A fine day, part cloudy in town, clear and moderately cool in the back country.

Went to Hurlburt's Grove alone; picked up Allen, then to Tapetul and back. Went via old Viejas Grade. Start at 12<sup>45</sup>. Return at 6<sup>05</sup>. Total miles 105.

Hunted only at one place about one mile south of old Duke house. At this point hunted about 3 1/4 hr. Got 1 Onocitta and 3 Skellies. Saw several utas. No X.h. Probably had been burned over too recently.

### Dead snakes.

1 large gopher at Viejas

1 large Boyle's King at Bostonia (Bellmann)

1 Ring neck at Flynn Springs (saw spec).

### live snakes.

1 large banded racer at top of grade. Call it Descanso. Bit fiercely. Dug for him and got him in bush by side of road.

1 large Gopher as cut off turns to Hurlburt was hurrying across the road.

1 Garter after leaving Hurlburt.

1 ~~small~~ medium Boyle's King just south of Allen's struck wildly before being touched at all. Fought hard.

1 small Mitchellii at Tapetul.

1926

Sunday 23,

May

A very poor day. Hooked OK in the morning but a heavy fog came in in the afternoon and spoiled everything. Was quite cold and damp.

Went to Hurlbuds and picked up Allen. Went out via south border road in Cajon Valley, Dehesa, Tapatub and Descanso. From Hurlbuds went to Laguna (Desert View) then back to north end Pine Valley, then to point about 3 miles south of Buckmans, thence home via Hurlbuds and old Viejas Grade. Start at 8<sup>40</sup>; return at 6<sup>15</sup>. Total miles 155.

### Dead Snakes

1 Large Calif Racer on Pine Valley grade

1 Pacific Rattles just south of Buckmans.

### Live Snakes

1 Small gopher El Cajon Valley. South road. Was crossing road.

1 Red Rattles near Glen Honda. Stopped to follow up a track and found him about 20 ft off the road and in a bush about 18" off the ground. Tried to escape by crawling along at this height through the bushes.

Saw many lizards (including 1 whiptail) along Dehesa grade. Caught 3 horned toads;

May

Monday 24.

1926

lost one. Weather was clear and bright at this time.

First stop with Allan was at Desert View. Got one Uta at this point. Saw Skellies, Orcuttii, Whiptail and Skink.

Stopped a little further down the mountain and turned over a few logs but got nothing.

Went to north end of Pine Valley and had lunch; then hunted in same rocks where we had good luck last week. But lizards were very scarce as it was already quite cold. Got a couple of Skellies and a Uta. No snakes seen.

Next tried a hillside covered with rocks about 3 mi south of Buckman's. Too cold.

Saw a couple of V. h. but got nothing.

No dead snakes seen on homeward trip.

Family went to Wildwood. Saw no snakes.

1926

Tuesday 25,

May

146 Saturday May 29 Continued

May Wednesday 26, 1926

On the way back when it was hotter not so many were seen.

On the way back coming up mt. Spring's grade stopped to let the engine cool and got 1 *Uta mearnsi*. This was about half way up. Did not stop any other place except to hunt the red races.

Returned to Jacumba at 3<sup>30</sup>. It was warm but not oppressive.

After leaving family at Jacumba, went back toward mt. Spring 4 miles and hunted in along a rocky ridge covered with large boulders. This is a good place to hunt as the going is easy. Little brush. However there are no good flakes. Hunted here until 5<sup>30</sup>. Not too hot for comfort.

Got 4 *Uta mearnsi* and 2 *Uta stansburiana*.  
Lizards? Saw many *Uta mearnsi*, 1 *X. h.*? and a couple of skinks unidentified.

*Uta mearnsi* is certainly the commonest lizard here at this time of day.

I saw not less than 25. They are wary and besides have to be hit in the head or they are lost. Saw one running along the underside of a boulder about 10° from the horizontal.

Got a horned toad at Jacumba. Seems standard

Saturday May 29<sup>th</sup> 1926

1926

Thursday 27,

May

Mileages at start 81.8.

Started at Tocumba at 8<sup>40</sup>. Went to El Centro, thence to Mexicali and return. Miles at return 205.

Was a warm day. 96 at El Centro at lunch time.

Along the road as far as Mountain Spring the lizards were very thick along the road side. Beyond Mountain Spring they were not noted.

#### Dead snakes

1 Red racer 5½ miles beyond Tocumba

1 Boa at 91.4 (just beyond Mt. Spring).

1 Long nose. Same place.

Coming back there was one live

#### Live snakes

red racer just east of Mt. Spring. <sup>lost him</sup>  
No snakes were seen in the Valley. Only a few dead frogs.

At Dixieland many Diposaurus were noted. Stopped and got 3 in a few minutes. Armed with a small shot gun one could make a clean up here on a morning such as this.

Also saw 1 Callisaurus

Thursday May 27<sup>th</sup>

May

~~Friday 28~~

1926

Had a morning visit with Tracy  
I. Storar. Showed him the zoo  
and my library. Took him to lunch.

149

1926

Saturday 29,

May

Started for Tacumba with the family at 4<sup>40</sup> P.M.; travelled via highway except sidetrip to Hurlburt's. Arrived at Tacumba at 7<sup>40</sup>.

A warm sultry day in town. Said to have been hot in the back country; the beginning of real summer.

Dusk at La Posta.

Did not stop along the road.  
No live snakes seen.

Dead snakes.

1. Couldnt identify 3 mi <sup>ea</sup> west of Flynn Springs.
  1. Small gopher - Alpine.
  - 1 large Calif. racer on new Vegas grade near top.
  - 1 medium pink mitchellii near Terrinitos.
  - 1 ? (didnt stop) at Buckman Springs.
- Total Miles ~~82.9~~ 81.8

May

Sunday 30,

1926

Went out alone at 7 AM; back at 8<sup>30</sup>. Went to same rocks about 4 mi. east of Tacumbla. First went to Desert View but nothing here.

at rocks got 11 *Uta mearnsi*, 6 *Uta stansburiana elegans*?, 1 *Grison* tail. latter was in sand bed of creek. *Uta mearnsi* even more plentiful than last night. Also saw several *S. orcutti*.

Got one large live *mittelli*. Was moving in rocks. Evidently saw me first; gave characteristic rattle click.

Got one small *Hypsiglena* dead on road. Saved specimen. Morning was rather warm. *Hypsiglena* evidently run over in the night.

Started for a drive at 10<sup>30</sup>; returned at 4 P.M. Campo (Rewey) morena Pam, Herlbrand's Grove, back to Tacumbla.

Miles 124.4 - 26.9 = 97.5. hunched at Budimans. Did no hunting. Too hot.

1 large *Gopher* dead on road at 62.2 Campo  
do

at 110.4 Boulevard

at 5<sup>30</sup> went to new rocks west of those visited in A.M. Saw a few *Uta mearnsi*, *U. s. e.*, *Orcutti* and 1 *Callisaurus*.  
Got nothing.

1926

Monday 31,

May

Started out at 6 A.M. alone. Went to the usual hunting ground 4 mi. east of Jacumba. Returned to the hotel at 9<sup>30</sup>. Worked hard amongst the rocks. Got about 20 *Uta* *meansi*, 2 *Sceloporus* *ocuttii* and 2 *Uta* *stansburiana*, sp. Saw 1 Whiptail.

*Uta* *meansi* is unquestionably more plentiful in the morning than evening. Also *Uta* *stansburiana*. The latter are unusually wild.

No snakes seen this A.M.

I am surprised at the lack of *Xantusia* *benshawi* in this rock ridge. Maybe *Uta* *meansi* drives them out. Opened up many favorable crevices without result. The one noted on Saturday May 24<sup>th</sup> was not certain; might have been a young *Uta* *meansi*.

*Uta* *meansi* is interesting to hunt. It is generally found on the large boulders. Is quite curious and consequently can be stalked easily. However they must be hit very hard (in the head) or they will get away. A large percentage are lost. The ones that are hit hard enough to get usually stick to the rock. When pursued these lizards

Monday May 31<sup>st</sup> Continued  
 Tuesday 1,

1926

never seem to take refuge under ground as does Orcuttii but jump from rock to rock until they find a suitable crevice. They are exceedingly plentiful at the proper time of morning. I must have seen at least 100 this A.M.

Started for home at 10<sup>30</sup> and reached home at 6 P.M. It was exceedingly hot east of the divide and quite warm elsewhere. Mostly too hot for snakes. Very few lizards were seen anywhere. 1 Whiptail crossed the road near Buckman's another in San Felipe.

Took the following route home Jacumba (37.0), High Bridge (50.9), Campo Junction (58.1), Pine Valley, Cuyamaca (ate lunch between Cuyamaca & Julian but did no hunting) Julian Junction (99.8) Banner, San Felipe, Warner's, Santa Ysabel, Ramona, home (145.0).

Saw the following snakes:

- 1 large Garter dead by the roadside at 50.0. Call it Hyps.
- 1 large Banded Racer lost at Buckman's.
- 1 medium Pacific Rattlesnake dead by roadside at Buckman's (67.4)
- 1 large Western Yellow Bellied Racer dead by Roadside at Cuyamaca
- 1 Arizona elegans dead by roadside at Warner's (131.7)
- 1 Arizona elegans small dead by roadside at Warner's (131.5)
- 1 large gopher dead by the roadside at Witch Creek
- 1 large salvadora escaped at Witch Creek.

Caught nothing on this trip.

Did not go out; too much misc.  
work to do.

1926

Sunday 6,

June

Went to Valley Center, Rincon, Pala, Bonsall, Escordido, Murphy Cañon. With family and Cotton Kids. Started at 10<sup>30</sup>; returned at 6<sup>10</sup>. A cloudy day with a low mist in town. Elsewhere comfortably warm, rather too warm in Rincon. Total miles 131.5. If snakes come out on medium warm days in summer this would be a good day.

Stopped for lunch 5 mi east of Pala on the river. This was the only stop. Hunted here about 2 hours. A good place for lizards. Shot 2 skellys, 1 uta, lost a number. Saw plenty skellies, utas and cutties. Caught one of the latter alive. X h. negative. Hunted mostly in dry bed of creek where there were many boulders.

Got one live gopher snake on the river bank. Quite a fighter. Had either been to the river to drink or had come across.

Got an alligator at foot of Valley Center grade.

Dead snakes. Long nose - Mission Valley  
Red Racer 10.3. - Rosedale  
Patch nose 5 mi west of Pala  
Garter 8 mi do Call it Bonsall

October Wednesday 27, 1926

Drove to Los Angeles. A fine  
clear day. Saw nothing.

1926 Thursday 28, October

Drove back from Los Angeles. A fine clear day south of Santa Ana. At La Costa saw what appeared to be a dead snake in the road but could not stop to investigate as had to make an appointment.

November Thursday 4, 1926

1926

Friday 5, November

Drove to El Cajon substation  
and back with Jacobsen and Watson.  
A clear warm day. Out by Encanto,  
back by La Mesa. Saw nothing  
27 miles.

November Saturday 6, 1926

1926 Tuesday 9, November

November Wednesday 10, 1926

Went to La Mesa Country Club  
to make up attendance. A hot  
day, one of several resulting in  
many brush fires. Saw nothing  
new.

1926 Thursday 11, November

November Friday 12, 1926

1926 Saturday 13, November

Drove to Santa Barbara (thence S.F.).  
A fine clear day. Saw nothing.

1926 Thursday 25, November

November Friday 26, 1926

1926 Saturday 27, November

Drove down from San Luis Obispo.  
a cold day after rain. All San Diego  
County driving at night. Saw nothing.

November Sunday 28, 1926

Met Faldborg at the Zoo. He claims to have seen a den of *C. mitchellii* at the top of Mussey Grade on Armistice day. Says there were at least 20 in a horizontal cleft of a rock where they could not be reached. Returned Thanksgiving but they were further in; could be heard but only one could be seen.

## POSTAGE

CLASSIFICATION	DOMESTIC	FOREIGN
Letters .....	2c. per ounce	5c. per ounce†
Postal Cards and Post Cards .....	1c. each	2c. each
Newspapers, Magazines, Periodicals .....	1c., 4 ounces	1c., 2 ounces
Printed Books**, Photos, Circulars, etc. ....	1c., 2 ounces	1c., 2 ounces
Merchandise .....	1c. per ounce \$ up to 4 ounces	Samples 2c., 4 ounces*

**REGISTRY FEE**, 10 cents in addition to postage, Domestic or Foreign. Domestic First-Class registered articles indemnified for \$50 or less, fee 10c.; \$100 or less, 20c. Any domestic mailable articles, except unsealed fourth-class matter (parcel post), may be registered.

\*Each additional ounce or fraction, 3 cents.

†Great Britain and Ireland; Newfoundland, Bahamas, Barbados, British Guiana, British Honduras, Leeward Islands, Dutch West Indies, New Zealand, and Dominican Republic, 2c. per ounce.

‡Each additional 2 ounces, 1 cent.

§Over 4 ounces at parcel post rate (according to distance). Inquire at P.O. **SEEDS, BULBS, ETC.**—The rate on seeds, bulbs, etc., weighing 8 oz. or less is 1 cent for 2 ounces. For rates on heavier packages inquire at P.O.

\*\*Printed books over eight ounces subject to parcel post rates.

\*Merchandise to foreign countries by Foreign Parcel Post.—Inquire at P.O.

**DOMESTIC: SPECIAL DELIVERY.**—A special delivery stamp or ten cents' worth of ordinary stamps and the words "Special Delivery" marked on the envelope or wrapper, in addition to the regular postage secures the immediate delivery of any piece of mail matter, including parcel post packages, within one mile of any U. S. post office.

**REFORWARDING.**—First-class matter (letters, postal cards, etc.) will be forwarded without extra postage. Other matter requires a new prepayment of postage.

Mail matter for Hawaii, Porto Rico, the Philippines, the islands of Guam and Tutuila, the "Canal Zone," Virgin Islands of U. S., and Shanghai, China, is subject to domestic rates and conditions. Domestic Rates and conditions, with certain exceptions, apply to mail addressed to Canada, Cuba, Mexico and Republic of Panama.

**DOMESTIC PARCEL POST.**—Merchandise may be sent by domestic parcel post, the rates depending upon weight and distance, concerning which inquire at P.O.

**REQUIREMENTS.**—Sender's name and address must appear on the package—otherwise unmailable.

Parcels over four ounces must be mailed at post office or places designated—not in street boxes.

Contents easily examined.

Limit of size 84 inches in length and girth combined.

Limit of weight 70 lbs. to 1st, 2nd and 3rd "zone" points; 50 lbs. to others; inquire at Post Office.

**C. O. D.**—Goods may be sent C. O. D. by parcel post. An amount not exceeding \$50 for a fee of 10c. or \$100 collected and returned to the sender for a fee of 25c., which also insures the parcel.

Postmaster General has authority to change Parcel Post classifications, rates, etc.

**POSTAL SAVINGS.**—Money may be deposited to individual accounts at offices which have been designated as Postal Savings Offices, and interest is paid at the rate of 2 per cent. per annum on deposits.

**DOMESTIC MONEY-ORDER FEES.**—For orders from \$0.01 to \$2.50, 3c.; \$2.51 to \$5.5c.; \$5.01 to \$10.01 to \$20. 10c.; \$20.01 to \$30. 12c.; \$30.01 to \$40. 15c.; \$40.01 to \$50. 18c.; \$50.01 to \$60. 20c.; \$60.01 to \$75. 25c.; \$75.01 to \$100. 30c.

**FOREIGN: COMMERCIAL PAPERS.**—The rate on Commercial papers is 5c. for first ten ounces or less, and each additional 2 ounces 1c.—unsealed.

**REPLY COUPONS.**—An International Reply Coupon may be purchased for 6c. which upon presentation in countries that have entered into the agreement will entitle the person presenting it to receive without charge a postage stamp of that country equivalent in value to a 5c. U. S. postage stamp.

**INTERNATIONAL OR FOREIGN MONEY-ORDER FEES.**—\$0.01 to \$10. 10c.; \$10.01 to \$20. 20c., etc., to \$100. \$1.00.

Subject to change after going to press.
